

# the seafood Market Report

June 11, 2023

Seafood that's fresh. Information that's to the point.

**BUCKHEAD**  
Meat & Seafood | a Sysco company

## trout

Farm Raised in Carolina. Plenty of availability.

## bronzini

600/800g Butterfly cut is our specialty!  
4-6oz fillets. Supply is steady.

## blue catfish

Pricing and supply are consistent. Slight uptick in pricing expected in the coming weeks.

## canadian salmon

Supply is consistent. No interruptions expected. Prices are falling.

## faroe salmon

Raw material market is tighter than usual; however, pricing is stable.

## chilean salmon

Pricing has stabilized.

## striped bass (rockfish)

Season is open in the Rappahannock. Supply is expected to increase and stabilize as the month goes on.

## H&G tuna

Domestic market is stable, following the cycles of the moon. Import market is flush.

## chilean seabass

Deepwater longline caught. Frozen at Sea. Supply is steady.

## shellfish

Recent price hikes on local oysters have not affected demand. The Chesapeake Bay season is over for Blue Point harvest, Blue Points will now come from Delaware. Northern and west coast oysters remain scarce.

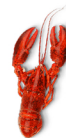

## halibut

Both coasts are producing, plenty of supply.

## softshell crab

Season is going poorly. Bad weather has affected availability.

## lobster (live)

Plenty of lobster available. Prices are stable.

## mahi mahi

The market is open, and product is plentiful.

## sword

Domestic market is stable, following the cycles of the moon. Import market is flush.

## venezuelan crabmeat

Market remains stable. Prices are low.
