

Snap-Back! with QR Codes

Your customers are looking for a convenient and safe way to view and order from your menu when dining-in. To meet these new expectations, and as an alternative to disposable menus, you may want to offer your menu online and viewable to your customers from their smart phone or tablet. This can be done quickly and easily by using a QR code.

QR codes link customers to your:

- Contactless dine-in menu
- Online ordering for carryout and delivery
- Website, social media, and image gallery
- LTO's, special features, and promotions
- Virtual "marketplace" to sell signature items, family-style bundles, and take & bake meals
